Sr. No.	Date	Title	Type	Description	Price (INR)
1	10-Nov-2026	Authentication module	New	The Authentication Module is responsible for managing user access and security within the application. Users can register using their personal details, log in with valid credentials, verify their identity through OTP, and securely reset forgotten passwords. The system validates user credentials, manages authentication tokens, and restricts unauthorized access to protected pages. It also supports role-based access control for different types of users, including Admin, Staff, and Customers. Users can securely log out of the application when their session is complete.	₹0
2	10-Nov-2026	Server pay	Update	The Authentication Module is responsible for managing user access and security within the application. Users can register using their personal details, log in with valid credentials, verify their identity through OTP, and securely reset forgotten passwords. The system validates user credentials, manages authentication tokens, and restricts unauthorized access to protected pages. It also supports role-based access control for different types of users, including Admin, Staff, and Customers. Users can securely log out of the application when their session is complete.	₹1,000
